

University Centre Colchester (UCC)

Staff Profile

The content below, and the accompanying profile image, will be used for the purpose of documenting your work at UCC, as well as promoting UCC's academic provision. This includes, but is not limited to, print (such as leaflets and prospectuses) and digital fora (such as on the College's website), as well as by external organisations authorised by UCC.

The College will retain and use the information and image(s) for the purpose(s) outlined above for the period you are an employee of Colchester Institute.

Name:	Marwan Mahassen
Job title/role:	Workshop Supervisor for IT Systems and Cisco Networking Lecturer in HE Information Technology
Subjects taught/administrative responsibilities:	Marwan supports degree students in IT classes and manages the Local Area Network, renews software, upgrades hardware and software in computer networks. He also delivers some lectures in IT.
Qualifications and Membership of Professional bodies: (At degree level: subject and level only; no dates required).	BSc Computer Networks, Sheffield Hallam University MSc Network Professional, Sheffield Hallam University
Experience in Education: (where you studied/ have taught/ have worked)	Marwan teaches the System Support module and practical tasks in workshops.
Biography and personal interests: (50-75 words) NB: As part of your profile page, UCC may wish to record a short video interview with you for inclusion on the website.	His main professional interests lie in computer networks and new technologies, and he spends much of his spare time keeping in touch with current developments in the latest technologies and applications. Marwen likes to dedicate time to his family, travelling around the country and abroad, and sharing common interests, such as swimming, bowling and walking in rural areas.
Professional practice / research interests: NB: If you wish to do so, please submit separately up to three examples of your work, which you would be happy to see published on your UCC staff webpage. This may include past conference papers, links to publications (if not included in this section), filmed/recorded performances, or visual images.	His research interest is the continuation of a project started for his MSc. It is concerned with Multi-Protocol Label Switching (MPLS) and its impact on network performance.
