

Colchester Institute Foundation Trust (CIFT)

Formed in 1996 as a Registered Charity (No. 1060317), CIFT Colchester Institute Foundation Trust's principal purpose is to benefit Colchester Institute students who are experiencing financial hardship to the extent that they are unable to participate at College and complete or achieve their qualifications.

In a lot of cases, due to their college commitments, students are unable to undertake formal employment, and there are those whose financial situations are really desperate and there simply isn't the financial support available within College funds to help them to continue to study and shape their futures.

Colchester Institute Foundation Trust welcomes applications from any student who is unable to access financial support offered through the usual college support funds. Students must be able to demonstrate commitment to their chosen course of study and the impact of the award is the difference between them staying on the course or having to withdraw.

The CIFT Fund is limited and any award is given at the discretion of the Trustees.

A report of how any award has contributed to the achievement may be asked for at the request of the CIFT Trustees.

CIFT Funds cannot be used to pay for tuition fees.

If your application to CIFT is successful, in some instances awards may be paid directly into your bank account by BACS. It will speed up the payment process if you provide us with your bank details in the section below:
