

# Computing

# WELCOME

**Hello this presentation is designed to give you a taste of the Computing qualifications that we offer.**

You can study these at either Braintree or Colchester campuses.

A short welcome video by our Area Head for Accounting, Business and Computing Carmel Asbury will play automatically.

## Computing

- Full time course studied over 3 days a week
- Level 3 courses attract UCAS points
- Allocation of a personal tutor
- Class sizes of approximately 20-24
- Staff with extensive industry experience as well as academic and vocational qualifications
- Students develop a range of skills and abilities that may include:
  - Presenting information in a range of formats
  - Project Management
  - Extra curricular activities
  - Planning and organising charity events
- 29% of students achieve D-D\* in their first year and 47% of students achieve DDD – D\*D\*D in their second year

## OUR UNIQUE SELLING POINTS

**Better Careers** Begin Here

# Computing

Pearson BTEC Level 3 National Extended Diploma

Grade	Tariff points
D*D*D*	168
D*D*D	160
D*DD	152
DDD	144
DDM	128
DMM	112
MMM	96
MMP	80
MPP	64
PPP –	48

# UCAS POINTS

Pearson BTEC Level 3 National Diploma

Grade	Tariff points
D*D*	112
D*D	104
DD	96
DM	80
MM	64
MP	48
PP	32

# FUTURE CAREERS

## Salary

Entry level £20,000  
With Experience £35,000 - £55,000

## Qualifications

Usually need a degree in a subject such as:  
Computer Science  
Computer Software/Computer Systems Engineering  
Computer systems and networks  
CISCO

## Network Engineer

## Employers

Banks and building societies  
Retail groups  
Government departments  
Schools, Colleges and hospitals

# Computing

# FUTURE CAREERS

## Salary

Entry level £19,000  
With Experience £35,000 - £50,000  
Lead developers £60,000 - £75,000

## Qualifications

Usually need a degree in:  
Computer Games (development or design)  
Computer Games programming  
Computer software/Computer systems engineering  
Computer Science  
Web design and development

Software Engineer/Web and  
Games Developer

## Employers

Educational institutions  
Marketing and advertising agencies  
Mobile phone companies  
Design companies

# Computing

# FUTURE CAREERS

## Salary

Entry level £25,000  
With Experience £35,000 - £50,000

## Qualifications

Usually need a degree in:  
Cyber/Information/Network Security  
Computer Science  
Software Engineering  
Computer forensics  
Criminology

## Cyber Security Analyst

## Employers

Professional services  
Security consultancy  
Information technology  
Financial Service institutions  
Government including security services – GCHQ and MI5

## CASE STUDY

Wil joined the BTEC Level 3 Extended Diploma in 2017 after an unfulfilling year at Colchester Sixth Form College which he ended with only 1 AS level to his name in IT, 52% attendance and a passion to pursue web development, the one thing he had enjoyed at sixth form. During the first year he worked hard to find a work experience internship in local web development and marketing companies, finally securing an internship at Braintree District Council in their web department during the summer.

He had glowing reports from his colleagues and supervisor whilst he was there, and was thrilled to receive a phone call some weeks following its finish, offering him a 15K part-time role in the department which he continued despite the travel distance and pressures of coursework throughout the second year of his course, completing this with a grade equivalent to three A\*s at A level and the offer of a permanent job within the department when his course came to an end.

As if this was not enough, when a more senior job arose as Digital Services Officer, he applied and was accepted! As he said at the time, 'his dream job at only 19 years old' – all because of the skills he gained from his course, and the work experience he sought with such determination!
