How can an Adult Care Worker apprentice benefit my business?

Apprenticeships are an excellent way to support your organisation by harnessing new and motivated talent whilst developing employees who have skills tailored to your business needs.

Who is the Adult Care Worker apprenticeship for?

Adult Care Workers need to have the right values, behaviours and skills to provide high quality compassionate care and support. They are the frontline staff who help adults with care and support needs to live as independently and safely as possible, enabling them to have control and choice in their lives, which is at the heart of person-centred care.

What will it cost the business to take on an apprentice?

Levy-paying employers in England can use funds in their Apprenticeship Service Account to fund apprenticeship training costs.

Non-levy paying employers: The government will fund between 95% - 100%* of the cost of training an apprentice.

*This depends on how many people are employed within the company, the age of the apprentice and also if they have been in care or have a Local Authority Education, Health and Care Plan (EHCP).

How is the '20% off-the-job' training delivered?

Functional Skills

If your apprentice does not hold a GCSE 4/5 or equivalent in English and maths, they will be required to complete functional skills. Delivery options will be agreed upon before the commencement of the apprenticeship.

End Point Assessment

The EPA tests and validates the knowledge, skills and behaviours that an apprentice has gained during their training and demonstrates the competence of an apprentice in their role. This assessment for the Adult Care Worker apprenticeship consists of:

- Situational judgement test
- Professional discussion
