### **Advance payment of Tuition Fees**

Students made an 'unconditional offer' will be required to pay full fees in advance to confirm their place on the course, they will also be required to provide evidence of their bank statements showing the minimum funds to meet the financial requirements for the student visa before a CAS certificate is issued.

Further Education tuition fee payment is:           £7000

Higher Education tuition fee payment is:           £8750

Please note: You must apply for your visa within 6 months of receiving your CAS if you are applying from outside the UK. If you are applying from inside the UK, the earliest you can apply is 3 months before the course starts.

### **Preventing Hardship**

To prevent financial hardship students must not travel to the UK, or begin a course of study, without making sure that they have enough money to cover all tuition fees and living expenses for the duration of their programme. The Admissions team at Colchester Institute will need to see evidence of your bank statements to confirm you meet the financial requirements for the student visa before a CAS is issued.

Under the UK Home Office policy all students studying outside London must show the following financial evidence when supplying their visa:

The required money has to be held in the bank account consecutively for 28 days. The end date of the 28-day period must be within 31 days of the date you apply for your visa and the bank statement used as proof must reflect this.

The guide on financing your studies is the minimum requirement for making your student visa application.

For information on family members coming to the UK as dependents please visit: <https://www.gov.uk/student-visa/family-members>
